1. Aims

The **Richmond upon Thames School** (The School) aims to ensure that all personal data collected, stored, processed and destroyed about any natural person, whether they be a member of the school workforce, pupil/student, parent, Governor, visitors, contractor, consultant, or any other individual is done so in accordance with the UK General Data Protection Regulation (UK GDPR), Data Protection Act 2018 (DPA 2018) and the Privacy and Electronic Communications (EC Directive) Regulations (PECR) 2003.

This policy applies to all personal data processed by the school, regardless of whether it is in paper or electronic format, or the type of filing system it is stored in, and whether the collection or processing of data was, or is, in any way automated.

2. Legislation and guidance

This policy meets the current requirements of UK Data Protection legislation. It is based on guidance published by the Information Commissioner's Office (ICO) on the EU GDPR, PECR 2003, UK GDPR and DPA 2018. It is also based on the information provided by the Article 29 Working Party.

Additionally, it meets the requirements of the Protection of Freedoms Act 2012, ICO's code of practice in relation to video surveillance, and the DBS Code of Practice in relation to handling sensitive information. Furthermore, this policy complies with the Education (Pupil Information) (England) Regulations 2005, which gives parents the right of access to their child's educational record.

3. Definitions

Term

Definition

Data controller

The natural or legal person, public authority, agency or other body which, alone or jointly with others, determines the purposes and means of the processing of personal data.

Data processor

A natural or legal person, public authority, agency or other body which processes personal data on behalf of the controller, following the Controller's instruction.

Data subject

The identified or identifiable individual whose personal data is held or processed.

Consent

Freely given, specific, informed and unambiguous indication of the data subject's wishes via a statement or by a clear affirmative action, signifying agreement to a specific processing of personal data relating to them.

Personal data

Any information relating to an identified or identifiable natural person ('data subject'); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a

- name,
- an identification number,
- location data,
- an online identifier or
- to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

Special categories of personal data

Personal data which is more sensitive and so needs more protection, including Information about an individual's:

- Racial or ethnic origin
- Political opinions
- Religious or philosophical beliefs
- Trade union membership
- Genetics
- Biometrics (such as fingerprints, retina and iris patterns), where used for identification purposes
- Health – physical or mental
- Sex life or sexual orientation
- History of offences, convictions or cautions *

* Note: Whilst criminal offences are not listed as special category data, within this policy they are regarded as such in acknowledgment of the extra care which is needed with this data set.

Processing

Any operation or set of operations which is performed on personal data or on sets of personal data, such as collection, recording, organisation, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction.

Processing can be automated or manual.

Data breach

A breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to personal data.

4. The Data Controller

The School collects and determines the processing for personal data relating to parents/carers, pupils, the school workforce, governors/volunteers, visitors and others, in addition they process data on the behalf of others therefore are considered a data controller and a data processor.

The School is registered as a data controller with the ICO and will renew this registration as legally required, the registration number is **ZA296728**

5. Roles and responsibilities

This policy applies to **all individuals** employed by our school, and to external organisations or individuals working on our behalf. Employees who do not comply with this policy may face disciplinary action.

5.1 Governing Board

The Governing Board has overall responsibility for ensuring that our school complies with all relevant data protection obligations.

5.2 Data Protection Officer

The School has appointed Grow Education Partners Ltd as its Data Protection Officer (DPO), the responsible contact is **David Coy** and is contactable via **david.coy@london.anglican.org**

They are responsible for overseeing the implementation of this policy, along with any future development of this or related policies/guidelines and reviewing our compliance with data protection law.

Upon request the DPO can provide an annual report of the school's compliance status directly to the governing board and will report to the board their advice and recommendations on school data protection issues.

The DPO is a named point of contact for all Data Subjects whose data the school processes, and for the ICO.

Full details of the DPO's responsibilities are set out in their SLA for Service.

5.3 Representative of the data controller

The **Head Teacher** acts as the representative of the data controller on a day-to-day basis.

5.4 All Employees

Employees (regardless of role) are responsible for:

- Collecting, storing and processing any personal data in accordance with this policy
- Informing the school of any changes to their personal data, e.g., a change of address, telephone number, or bank details.
- Reporting a Data Breach, Data Right Request, or Freedom of Information Request.
- Contacting the Data Protection Lead or DPO:
 - With any questions about the operation of this policy, data protection law, retaining personal data or keeping personal data secure.

- If they have any concerns that this policy is not being followed
- If they are unsure whether or not, they have a lawful basis to use personal data in a particular way.
- If they need to rely on or capture consent, draft a privacy notice/notification, or transfer personal data outside the United Kingdom.
- Whenever they are engaging in a new activity that may affect the privacy rights of individuals
- If they need help with any contracts or sharing personal data with third parties

6. The Data protection principles

Data Protection is based on seven principles that the School must comply with.

These are that personal data must be;

- Processed lawfully, fairly and in a transparent manner.
- Collected for specified, explicit and legitimate purposes.
- Adequate, relevant and limited to what is necessary to fulfil the purposes for which it is processed.
- Accurate and, where necessary, kept up to date.
- Kept for no longer than is necessary for the purposes for which it is processed.
- Processed in a way that ensures it is appropriately secure.

The Accountability principle ties these all together by requiring an organisation to take responsibility for complying with the other six principles. Including having appropriate measures and records in place to be able to demonstrate compliance.

This policy sets out how the school aims to comply with these key principles.

7. Processing personal data

7.1 Lawfulness, fairness and transparency

We will only process personal data where we have one of six 'lawful basis's (legal reasons) to do so under data protection law:

- The individual (or their parent/carer when appropriate) has freely given clear **consent**
- The data needs to be processed so that the school can **fulfil a contract** with the individual, or the individual has asked the school to take specific steps before entering into a contract
- The data needs to be processed so that the school can **comply with a legal obligation**
- The data needs to be processed to ensure the **vital interests** of the individual e.g. to protect someone's life
- The data needs to be processed so that the school, as a public authority, can perform a task **in the public interest**, and carry out its official functions
- The data needs to be processed for the **legitimate interests** of the school or a third party (provided the individual's rights and freedoms are not overridden)

For special categories of personal data, we will also meet one of the special category conditions for processing which are set out in data protection law.

These are where:

- The individual (or their parent/carer, where appropriate) has **given explicit consent**;
- It is necessary for the purposes of carrying out the **obligations and exercising specific rights** of the controller or of the data subject in the field of **employment** of a Data Controller or of a Data Subject.
- It is necessary to protect the **vital interests** of the Data Subject;
- Processing is carried out in the course of its **legitimate activities** with appropriate safeguards by a **foundation, association or any other not-for-profit body with a political, philosophical, religious or trade union aim**.
- The Personal Data has **manifestly been made public** by the Data Subject;
- There is the **establishment, exercise or defence of a legal claim**;
- There are reasons of **public interest** in the area of **public health**;
- Processing is necessary for the purposes of preventative or occupational medicine (e.g. for the **assessment of the working capacity of the employee**, the medical diagnosis, the provision of health or social care or treatment);
- There are **archiving** purposes in the **public interest**;

Where we collect personal data directly from individuals, we will provide them with the relevant information required by data protection law, in the form of a privacy notice.

These privacy notices can be found in a location accessible and relevant to the data subjects

- Students and Parents/Carers: **School website**
- School Workforce (includes Trainees, Contractors and Consultants): **School website**
- Trustees and Volunteers: **School website**
- Job Applicants: **School website**
- Visitors: **School website**

Additional Copies of the Privacy Notices are available on request by contacting **Senior Administrator: Amy Havell** via **info@rts.richmond.sch.uk**

7.2 Limitation, minimisation and accuracy

We will only collect personal data for specified explicit and legitimate reasons. We will explain these reasons to the individuals when we first collect their data via our privacy notices.

If we want to use personal data for reasons other than those given when we first obtained it, we will inform the individuals concerned before we do so and seek consent where necessary.

Employees must only access and process personal data where it is necessary to do their jobs.

We will keep data accurate and, where necessary, up to date. Inaccurate data will be rectified or erased when appropriate.

When personal data is longer required, employees must ensure it is destroyed. This will be done in accordance with the school data retention policy, which states how long particular documents should be kept, and how they should be destroyed.

Copies of the Data Retention Policy can be obtained by contacting **Senior Administrator: Amy Havell via info@rts.richmond.sch.uk**

8. Biometric recognition systems

Where we use pupils' biometric data as part of an automated biometric recognition system (for example, pupils use fingerprints to receive school dinners instead of paying with cash), we will comply with the requirements of the Protection of Freedoms Act 2012.

Parents/carers will be notified before any biometric recognition system is put in place or before their child first takes part in it. The school will get written consent from at least one parent or carer before we take any biometric data from their child and first process it.

Parents/carers and pupils have the right to choose not to use the school's biometric system(s). We will provide alternative means of accessing the relevant services for those pupils

Parents/carers and pupils can object to participation in the school's biometric recognition system(s), or withdraw consent, at any time, and we will make sure that any relevant data already captured is deleted.

As required by law, if a pupil refuses to participate in, or continue to participate in, the processing of their biometric data, we will not process that data irrespective of any consent given by the pupil's parent(s)/carer(s).

9. Sharing personal data

In order to efficiently, effectively and legally function as a data controller we are required to share information with appropriate third parties, including but not limited to situations where:

- There is an issue with a pupil or parent/carers that puts the safety of our staff at risk
- We need to liaise with other agencies or services – we may seek consent when appropriate before doing this where possible.
- Our suppliers or contractors need data to enable us to provide services to our employees and pupils – for example, IT companies. When doing this, we will:
 - Only appoint suppliers or contractors which can provide sufficient guarantees that they comply with data protection law and have satisfactory security measures in place.
 - Establish a data sharing agreement with the supplier or contractor, either in the contract or as a standalone agreement, to ensure the fair and lawful processing of any personal data we share.
 - Only share data that the supplier or contractor needs to carry out their service, and information necessary to keep them safe while working with us.

We will also share personal data with law enforcement and government bodies when required to do so, these include but are not limited to:

- The prevention or detection of crime and/or fraud
- The apprehension or prosecution of offenders

- The assessment or collection of tax owed to HMRC
- In connection with legal proceedings
- Where the disclosure is required to satisfy our safeguarding obligations
- Research and statistical purposes, as long as personal data is sufficiently anonymised or consent has been provided

We may also share personal data with emergency services and local authorities to help them to respond to an emergency situation that affects any of our pupils or employees.

10. Transferring Data Internationally

We may send your information to other countries where:

- we or a company we work with store information on computer servers based overseas; or
- we communicate with you when you are overseas.

We conduct due diligence on the companies we share data with and note whether they process data in the UK, EEA (which means the European Union, Liechtenstein, Norway and Iceland) or outside of the EEA.

The UK and countries in the EEA are obliged to adhere to the requirements of the GDPR and have equivalent legislation which confer the same level of protection to your personal data.

For organisations who process data outside the UK and EEA we will assess the circumstances of how this occurs and ensure there is no undue risk.

Additionally, we will assess if there are adequate legal provisions in place to transfer data outside of the UK.

11. Individuals Data Protection Rights

11.1 Access Rights

Individuals have a right to make a **'subject access request'** to gain access to personal information that the school holds about them.

If you make a subject access request, and if we do hold information about you, we can:

- Give you a description of it.
- Tell you why we are holding and processing it, and how long we will keep it for.
- Explain where we got it from, if not from you.
- Tell you who it has been, or will be, shared with.
- Let you know whether any automated decision-making is being applied to the data, and any consequences of this.
- NOT provide information where it compromises the privacy of others.
- Give you a copy of the information in an intelligible form.

When responding to requests, we will not disclose information if it:

- Might cause serious harm to the physical or mental health of the pupil or another individual; or
- Would reveal that the child is at risk of abuse, where the disclosure of that information would not be in the child's best interests; or
- Is contained in adoption or parental order records; or
- Is given to a court in proceedings concerning the child

11.2 Other Rights regarding your Data:

You may also

- Withdraw their consent to processing at any time, this only relates to tasks which the school relies on consent to process the data.
- Ask us to rectify, erase or restrict processing of your personal data, or object to the processing of it in certain circumstances and where sufficient supporting evidence is supplied
- Prevent the use of your personal data for direct marketing
- Challenge processing which has been justified on the basis of public interest, official authority or legitimate interests.
- Request a copy of agreements under which your personal data is transferred outside of the United Kingdom.
- Object to decisions based solely on automated decision making or profiling (decisions taken with no human involvement, that might negatively affect them)
- Request a cease to any processing that is likely to cause damage or distress
- Be notified of a data breach in certain circumstances
- Refer a complaint to the ICO
- Ask for your personal data to be transferred to a third party in a structured, commonly used and machine-readable format (in certain circumstances)

In most cases, we will respond to requests within 1 month, as required under data protection legislation. However, we are able to extend this period by up to 2 months for complex requests or exceptional circumstances.

We reserve the right to verify the requesters identification by asking for Photo ID, if this proves insufficient then further ID may be required.

If the request is manifestly unfounded or excessive, we may refuse to act on it, or charge a reasonable fee which would only take into account administrative costs.

A request will be deemed to be manifestly unfounded or excessive if it is repetitive or asks for further copies of the same information.

In the event we refuse a request, we will tell the individual why, and tell them they have the right to refer a complaint to the ICO.

The School will comply with the Data Protection legislation in regard to dealing with all data requests submitted in any format, individuals are asked to preferably submit their request in written format to assist with comprehension.

They should include:

- Name of individual
- Correspondence address
- Contact number and email address
- Details of the request

If you would like to exercise any of the rights or requests listed above, please contact **Head Teacher's PA: Barbara Munro:**

- Pa@rts.richmond.sch.uk
- **0208 891 2985**
- **The Richmond uponThames School., Egerton Road. Twickenham Middlesex TW2 7SL**

If staff receive a subject access request, they must immediately forward it to the **Head Teacher's PA.**

11.3 Children and Data Rights/Requests

An individual's data belongs to them therefore a child's data belongs to that child, and not the child's parents or carers.

However, children below the age of 12 are generally not regarded to be mature enough to understand their rights and the implications of invoking a data request. Therefore, for children under the age of 12 most data requests from parents or carers of pupils at our school may be granted without the express permission of the pupil. This is not a rule and a pupil's ability to understand their rights will always be judged on a case-by-case basis.

Where a child is judged to be of sufficient age and maturity to exercise their rights and a request is invoked on their behalf, we would require them to give consent to authorise the action to be undertaken.

12. Parental requests to see the educational record

Academies are not required to provide educational records if a parent requests it, as the Education (student information) Regulations 2005, which places this obligation on maintained schools, does not apply to academies. An academy may choose to comply, but parents no longer have a legal right to this information. However, please refer to the section on subject access above. The Independent School Standards Regulations which applies to academies by virtue of their funding agreement, states that the standard about provision of information is met if the Academy Trust ensures that an annual written report of each registered student's progress and attainment in the main subject areas taught, is sent to the parents of that registered student

13. Close Circuit Television (CCTV)

We use CCTV in various locations around the school sites and premises for the detection and prevention of crime. However, footage may be used for additional reasons specified more fully in the CCTV Policy. We adhere to the ICO's code of practice for the use of video surveillance and provide training to staff in its use.

We do not need to ask individuals' permission to use CCTV, but in most instances we make it clear where individuals are being recorded, with security cameras that are clearly visible and accompanied by prominent signs

explaining that CCTV is in use, and where it is not clear, directions will be given on how further information can be sought.

The full CCTV policy can be found by **the School website**. Any enquiries about the CCTV system should be directed to **Priti Saud** via SLT@rts.richmond.sch.uk.

14. Artificial intelligence (AI) Artificial intelligence

(AI) tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT and Google Bard. The School recognises that AI has many uses to help pupils learn, but also poses risks to sensitive and personal data. To ensure that personal and sensitive data remains secure, no one will be permitted to enter such data into unauthorised generative AI tools or chatbots. If personal and/or sensitive data is entered into an unauthorised generative AI tool. The School will treat this as a data breach, and will follow the personal data breach procedure outlined in this policy.

15. Photographs and videos

As part of our school activities, we may take photographs and record images of individuals within our school.

The use of school photographs includes but is not limited to:

- Within school on notice boards and in school magazines, brochures, newsletters and prospectuses.
- Outside of school by external agencies and partners such as the school photographer, local and national newspapers and local and national campaigns we are involved with
- Online on our website or social media pages

We will obtain consent from the responsible individuals to use pupil images. When doing so we will clearly explain how the photograph and/or video will be collected and used to both the parent/carer and pupil when obtaining consent.

Consent can be refused or withdrawn at any time. If consent is withdrawn, we will delete the photograph or video and not distribute it further.

You can withdraw consent by **indicating this preference in Arbor and by email to Senior Administrator: Amy Havell via info@rts.richmond.sch.uk**

When using photographs and videos in this way we will not accompany them with any other personal information about the child, to ensure they cannot be identified.

See our Safeguarding and Child Protection Policy for more information on our use of photographs and videos.

This can be found **on the school website**.

16. Data protection by design and default

We will put measures in place to show that we have integrated data protection into all of our data collection and processing activities. These include, but are not limited to the following organisational and technical measures:

- Appointing a suitably qualified DPO, and ensuring they have the necessary resources to fulfil their duties and maintain their expert knowledge
- Only processing personal data that is necessary for each specific purpose of processing, and always in line with the data protection principles set out in relevant data protection regulations.

- Completing data privacy impact assessments where the school's processing of personal data presents a high risk to rights and freedoms of individuals, and when introducing new technologies or processing tools. Advice and guidance will be sought from the DPO.
- Integrating data protection into internal documents including this policy, any related policies and privacy notices
- Providing regular training for the school workforce on data protection law, this policy and any related policies and any other data protection matters, from induction onwards. Records of attendance will be kept ensuring that all data handlers receive appropriate training.
- Periodic audits will be undertaken to monitor and review our privacy measures and make sure we are compliant.
- Maintaining records of our processing activities, including:
 - For the benefit of data subjects, making available the name and contact details of our school DPO and all information we are required to share about how we use and process their personal data (via our privacy notices)
 - For all personal data that we hold; maintaining an internal record of the type of data, data subject, how and why we are using the data, any third-party recipients, how and why we are storing the data, retention periods and how we are keeping the data secure.

17. Data security and storage of records

We will protect personal data and keep it safe from unauthorised or unlawful access, alteration, processing or disclosure, and against accidental or unlawful loss, destruction or damage.

Our organisational and technical measures include, but are not limited to;

- Paper-based records and portable electronic devices, such as laptops, tablets and hard drives that contain personal data will be kept under lock and key when not in use. We endorse a clear desk policy.
- Papers containing confidential personal data will not be left out on display when not in use unless there is a compelling lawful basis to do so e.g. Public Task to display Allergy information in the Medical Room.
- Passwords that are at least eight characters long containing letters and numbers are used to access school computers, laptops and other electronic devices. Those who utilise school-controlled devices or platforms are reminded to change their passwords at regular intervals.
- Encryption software is used to protect any devices such as Laptops, Tablets and USB Devices where saving to the hard drive is enabled.
- Employees, Pupils or Governors/Volunteers who store personal information on their personal devices are expected to follow the same security procedures as for school-owned equipment (**see School's Online safety policy and acceptable user agreements for further information**).
- Where we need to share personal data with a third party, we carry out due diligence and take reasonable steps to ensure it is stored securely and adequately protected.

18. Disposal of records

Personal data that is no longer needed will be disposed of securely. Personal data that has become inaccurate or out of date will be rectified or updated, unless it is no longer of use and therefore will be disposed of securely.

For example, we will shred paper-based records, and overwrite or delete electronic files. We may also use a third party to safely dispose of records on the school's behalf. If we do so, we will require the third party to provide sufficient guarantees that it complies with data protection law and provide a certificate of destruction.

When records are disposed of as part of the Data Retention schedule this is then recorded on our record of destruction log.

19. Personal data breaches

The school will make all reasonable endeavours to ensure that there are no personal data breaches.

All potential or confirmed Data Breach incidents should be reported to the **Priti Saund and the Head Teacher** where they will be assigned a unique reference number and recorded in the school's data breach log.

Once logged, incidents will then be investigated, the potential impact assessed, and appropriate remedial action undertaken. The DPO will be consulted as required.

Where appropriate, we will report the data breach to the ICO and affected Data Subjects within 72 hours.

The full procedure is set out in the Breach Management Procedure, which can be found here **at Appendix 1 of this policy.**

Examples of a Data Protection Breach include but are not limited to:

- Personal data being left unattended in a meeting room/in the staffroom/in the staff workroom.
- Sending information relating to a pupil or family to the wrong member of staff in school, or to the wrong parent
- A non-anonymised dataset being published on the school website which shows the exam results of pupils eligible for the pupil premium.
- Safeguarding information being made available to an unauthorised person.
- The theft of a school laptop containing non-encrypted personal data about pupils

20. Training

All employers and governors are provided with data protection training as part of their induction process.

Periodic refresher will be provided to adhere to ICO best practice or to respond to changes in legislation, guidance or the school's processes.

21. Monitoring arrangements

The DPO is responsible for monitoring and reviewing this policy as part of the general monitoring and compliance work they carry out.

They will work with **School Data Protection Lead: Priti Saund** and the **Lead Governor for Data Protection: Jason Hughes** to ensure that this policy remains contemporaneous and appropriate.

This policy will be reviewed yearly, and changes recommended when appropriate. The Governors will be asked to sign off the policy review and any necessary changes.

22. Links with other policies and procedures

This data protection policy is linked to our:

- Asset Management Recording Policy
- Breach Management Procedure
- CCTV Policy
- Data Retention Schedule
- Disaster Recovery/Business Continuity Planning and Risk Register
- Freedom of information publication scheme
- ICT Acceptable User Agreements
- Online Safety Policy
- Safeguarding and Child Protection Policy

Breach Management Procedure

This procedure is based on [guidance on personal data breaches](#) produced by the ICO.

All potential or confirmed data breach incidents must be reported to the School Data Protection Lead and the Head Teacher.

Each incident will be assigned a unique reference number and recorded in the school's data breach log.

Once logged, incidents will then be investigated, the potential impact assessed, and appropriate remedial action undertaken. The DPO will be consulted as required.

The Data Protection Officer (DPO) will investigate the incident to determine whether a breach has occurred.

The DPO will consider if personal data has been accidentally or unlawfully:

- Lost
- Stolen
- Destroyed
- Altered
- Disclosed or made available where it should not have been
- Made available to unauthorised people

The DPO will notify the Head Teacher and the chair of trustees.

- The DPO will make all reasonable efforts to contain and minimise the impact of the breach, assisted by relevant staff members or data processors where necessary. (Actions relevant to specific data types are set out at the end of this procedure)
- The DPO will assess the potential consequences, based on how serious they are, and how likely they are to happen
- The DPO will work out whether the breach must be reported to the ICO. This must be judged on a case-by-case basis. To decide, the DPO will consider whether the breach is likely to negatively affect people's rights and freedoms, and cause them any physical, material or non-material damage (e.g. emotional distress), including through:
 - Loss of control over their data
 - Discrimination
 - Identify theft or fraud
 - Financial loss
 - Unauthorised reversal of pseudonymisation (for example, key-coding)
 - Damage to reputation
 - Loss of confidentiality
 - Any other significant economic or social disadvantage to the individual(s) concerned If it's likely that there will be a risk to people's rights and freedoms, the DPO must notify the ICO.
- The DPO will document the decision (either way), in case it is challenged at a later date by the ICO or an individual affected by the breach. Documented decisions are stored on the school's computer system.
- Where the ICO must be notified, the DPO will do this via the ['report a breach' page of the ICO website](#) within 72 hours. As required, the DPO will set out:
 - A description of the nature of the personal data breach including, where possible:
 - The categories and approximate number of individuals concerned
 - The categories and approximate number of personal data records concerned

- o The name and contact details of the DPO
- o A description of the likely consequences of the personal data breach
- o A description of the measures that have been, or will be taken, to deal with the breach and mitigate any possible adverse effects on the individual(s) concerned
- If all the above details are not yet known, the DPO will report as much as they can within 72 hours. The report will explain that there is a delay, the reasons why, and when the DPO expects to have further information. The DPO will submit the remaining information as soon as possible
- The DPO will also assess the risk to individuals, again based on the severity and likelihood of potential or actual impact. If the risk is high, the DPO will promptly inform, in writing, all individuals whose personal data has been breached. This notification will set out:
 - o The name and contact details of the DPO
 - o A description of the likely consequences of the personal data breach
 - o A description of the measures that have been, or will be, taken to deal with the data breach and mitigate any possible adverse effects on the individual(s) concerned
- The DPO will notify any relevant third parties who can help mitigate the loss to individuals – for example, the police, insurers, banks or credit card companies
- The DPO will document each breach, irrespective of whether it is reported to the ICO. For each breach, this record will include the:
 - o Facts and cause
 - o Effects
 - o Action taken to contain it and ensure it does not happen again (such as establishing more robust processes or providing further training for individuals)

Records of all breaches will be stored on the school's computer system

- The DPO and Head Teacher will meet to review what happened and how it can be stopped from happening again. This meeting will happen as soon as reasonably possible

Actions to minimise the impact of data breaches

We will take the actions set out below to mitigate the impact of different types of data breach, focusing especially on breaches involving particularly risky or sensitive information. We will review the effectiveness of these actions and amend them as necessary after any data breach.

Sensitive information being disclosed via email (including safeguarding records)

- If special category data (sensitive information) is accidentally made available via email to unauthorised individuals, the sender must attempt to recall the email as soon as they become aware of the error
- Members of staff who receive personal data sent in error must alert the sender and the DPO as soon as they become aware of the error
- If the sender is unavailable or cannot recall the email for any reason, the DPO will ask the ICT department to recall it

- In any cases where the recall is unsuccessful, the DPO will contact the relevant unauthorised individuals who received the email, explain that the information was sent in error, and request that those individuals delete the information and do not share, publish, save or replicate it in any way
- The DPO will ensure we receive a written response from all the individuals who received the data, confirming that they have complied with this request
- The DPO will carry out an internet search to check that the information has not been made public; if it has, we will contact the publisher/website owner or administrator to request that the information is removed from their website and deleted

Other types of breach that you might want to consider could include:

- Details of student premium interventions for named children being published on the school website
- Non-anonymised student exam results or staff pay information being shared with trustees
- A school laptop containing non-encrypted sensitive personal data being stolen or hacked
- The school's cashless payment provider being hacked and parents' financial details stolen

Appendix 2 - Record of Data Breaches

Accessible in school.

CCTV Policy

7. Access to CCTV Images	25
8. Disclosure of Images to Data Subjects (Subject Access Requests)	25
9. Disclosure of Images to Third Parties	26
10. Complaints	26

1. Data Protection

Any personal data processed in the delivery of this policy will be processed in accordance with the school Data Protection Policy. Further information can also be found in the Record of Processing Activity.

2. Policy Statement

The Richmond upon Thames School uses Closed Circuit Television (“CCTV”) within the school site. The purpose of this policy is to set out the operation, use, storage and disclosure of CCTV at the School.

This policy applies to all data subjects whose image may be captured by the CCTV system. It works in concurrence with the School’s Data Protection Policy, Record of Processing Activity and Data Retention Schedule.

The policy considers applicable legislation and guidance, including but not limited to;

- The UK General Data Protection Regulation (UK GDPR)
- Data Protection Act (DPA) 2018
- Video Surveillance Code of practice as produced by the Information Commissioner’s Office (ICO)
- Protection of Freedom Act (PoFA) 2012
- Human Rights Act 1998.

The CCTV system is owned and operated by the **school**.

The deployment is determined by the **Senior Leadership Team (SLT)**, with input from the **Board of Trustees** and **Data Protection Officer (DPO)**.

The school will:

- Notify the ICO of its use of CCTV as part of its registration.
- Complete a Data Privacy Impact Assessment if amendments are to be made to the deployment or use of CCTV.
- Treat the system and all information processed on the CCTV system as data which is processed under DPA 2018/UK GDPR.
- Not direct cameras outside of school grounds onto private property, an individual, their property or a specific group of individuals. The exception to this would be if authorisation was obtained for Direct Surveillance as set up by the Regulatory of Investigatory Powers Act 2000.
- Display warning signs clearly in prominent places.

Specifically, at all entrances to the school site and premises where CCTV is in use. Additionally, any public areas where a passer-by may be recorded. Where necessary these signs will include information on how to contact the school regarding information or access to the CCTV footage.

- Not use CCTV footage for any commercial purposes.

There is no guarantee that this system will or can cover and detect every single incident taking place in the areas of coverage.

3. Camera Setup

The CCTV system is comprised of **70** cameras which record day and night covering the **Internal and External** areas of the School. **Their coverage also extends past the school boundaries to public areas.**

Cameras will be placed so they only capture images relevant for the purposes for which they are installed, and all care will be taken to ensure that reasonable privacy expectations are not violated.

CCTV is not sited in classrooms except in exceptional circumstances.

Members of staff on request can access details of CCTV camera locations.

4. Purpose of CCTV

The School uses CCTV for the following purposes:

- To provide a safe and secure environment for the school workforce, pupils and visitors.
- To protect the school buildings and assets.
- To assist in the prevention and detection of criminal activity.
- To assist law enforcement agencies in apprehending suspected offenders.

5. Covert Monitoring

The school retains the right in exceptional circumstances to set up covert monitoring. For example:

- Where there is good cause to suspect illegal or serious unauthorised action(s) are taking place, or where there are grounds to suspect serious misconduct.
- Where notifying the individuals about the monitoring would seriously prejudice the reason for making the recording.

In these circumstances authorisation must be obtained from the Head Teacher and Chair of Governors.

Covert monitoring will cease following the completion of any investigation.

6. Storage and Retention

Recorded data will not be retained for longer than is necessary., While retained the integrity of the recordings will be maintained to ensure their evidential value and to protect the rights of people whose images have been recorded.

All data will be stored securely.

The monitors to view CCTV footage are kept in the main Server Room.

Recordings will be kept for **28 consecutive days**. unless there is a specific purpose for which they are required, then they will be retained for a longer period.

Recordings will be stored on the school server for **28 consecutive days only**, after which they will be erased. No back up or storage of CCTV footage takes place unless there is a specific purpose for which a section of footage is required.

7. Access to CCTV Images

The ability to view live and historical CCTV footage is only to be provided at designated locations and by authorised persons.

Specific live monitoring is limited to the server room.

Direct access to recorded footage is limited to **Trustees, the Senior Leadership Team, Facilities Manager and IT Technical Staff.**

Only in exceptional circumstances will any other individuals be allowed to view footage. The reasons for and details of these circumstances will be recorded at the time such a decision is made.

A log of any access to the CCTV images, including time and dates of access, and a record of the individual accessing the images, will be maintained by the school.

8. Disclosure of Images to Data Subjects (Subject Access Requests)

Any individual recorded in any CCTV image is considered a data subject and therefore has the right to request access to those images.

These requests will be considered a Subject Access Request and should follow the school's Subject Access Request process. The School will comply with the Data Protection legislation in regard to dealing with all data requests submitted in any format, individuals are asked to preferably submit their request in written format to assist with comprehension.

They should include:

- Name of individual
- Correspondence address
- Contact number and email address
- Details of the request

If you would like to exercise any of the rights or requests listed above, please contact **Head Teacher's PA: Barbara Munro:**

- Pa@rts.richmond.sch.uk
- **0208 891 2985**
- **The Richmond uponThames School., Egerton Road. Twickenham Middlesex TW2 7SL**

If staff receive a subject access request, they must immediately forward it to the **Head Teacher's PA.**

When such a request is made, the footage will be reviewed in accordance with the request.

If the footage contains only the data subject making the request, then the individual may be permitted to view the footage.

This will be strictly limited to the footage of the data subject making the request and the specific reason for the request.

If the footage contains images of other data subjects, then the school will consider whether:

- The request requires the disclosure of the images of data subjects other than the requester, and whether these additional data subjects can be anonymized in the footage.

- The other individuals in the footage have consented to the disclosure of the images or if their consent could be obtained.
- If not, then whether it is reasonable in the circumstances to disclose those images to the data subject making the request.

The School reserves the right to refuse access to CCTV footage where this would prejudice the legal rights of other data subjects or jeopardise an ongoing investigation.

9. Disclosure of Images to Third Parties

The School will only disclose recorded CCTV footage to third parties where there is a lawful basis to do so.

Third parties acting on behalf of a data subject will be handled in accordance with the usual Subject Access Request process.

CCTV footage will only be disclosed to law enforcement agencies in line with the purpose for which the CCTV system is in place.

If a request is received from a law enforcement agency for the disclosure of footage then the school will ask for an explanation of the reasoning for wanting to obtain the footage.

This will help enable proper consideration of the extent of what can appropriately be disclosed.

If an order is granted by a court for the disclosure of CCTV images then this will be complied with, but consideration will be given to exactly what the order requires.

In all instances, if there are any concerns as to what should or should not be disclosed then the Data Protection Officer will be contacted and further legal advice sought if necessary.

10. Complaints

We take any complaints about our collection and use of personal information very seriously.

If you think that our collection or use of personal information is unfair, misleading or inappropriate, or have any other concern about our data processing, please raise this with the school in the first instance.

If you remain unhappy you may wish to contact our Data Protection Officer. **David Coy** who is contactable via **david.coy@london.anglican.org**

Alternatively, you can refer a complaint to the Information Commissioner's Office:

- Report a concern online at <https://ico.org.uk/concerns/>
- Call 0303 123 1113
- Or write to: Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF
